A Tablet Cover stamped with Fruit Motifs

Decorate this tablet cover with stamps and textile markers.

Place a rigid underlay inside the cover, for example a piece of cardboard, a cutting mat or similar.

Mark the distance between each stamp with double-sided adhesive tape attached approx. 2,5 cm apart.

Start stamping the designs onto the cover. Start from the middle and work your way out.

Transform the stamped designs with textile markers into pineapples and water melons.

Fix with an iron for approx. 5 minutes on a medium heat setting.
