Folded Design Paper Christmas Trees

These Christmas trees are made from folded design paper circles which are punched-out in two different sizes with a paper punch.

Punch out three circles from design paper (two large ones and one middle-sized one).

First fold the circle into a semi circle and then into a quarter circle. Unfold and make two folds as shown in the photo. Repeat on all three circles.

Apply glue onto the front and the back of the points of the two large circles.

Insert the point of one of the large folded circles into the small folded circle so that the small circle forms the top of the tree. Repeat with the other large folded circle so that its point is secured inside the large folded circle.

Finish by attaching a piece of thread with faceted beads for hanging.

Design Paper Pad, sheet 15.2x15.2 cm, 120 g, mintgrön, rose, 50sheets 225913

Faceted Bead Mix, size 10-12-16 mm, hole size 1-2.5 mm, , 75g, 125ml 618780

Clear Glue Stick, 10 g, , Round, 1pc 39041

Craft Punch Set, size 25+49+75 mm, max 240 g, , circle, 3pcs 11289

Faceted Bead Mix, size 10-12-16 mm, hole size 1-2.5 mm, asstd colours, 500g, 700ml, approx. 440 asstd. 61878

Design Paper Pad, sheet 15.2x15.2 cm, 120 g, blue, 50sheets 225915

Sewing Thread, L: 1000 , mint green, polyester, 915m 41206

Clear Glue Stick, 10 g, , round, 48pcs 39040

Design Paper Pad, sheet 15.2x15.2 cm, 120 g, asstd. colours, 6x50sheets 225910
