## Bamboo Bowls decorated with Numbers and Letters

Decorate a bamboo bowl with rub-on stickers with numbers or letters which are rubbed on with the supplied wooden stick. The bowls can be wiped with a damp cloth.

Start by attached masking tape around the bamboo bowl to get a straight edge. The lower edge of the tape is 1 cm from the top of the bowl on the large bowl. On the small bowl, the lower edge of the tape is 0.7 cm from the top of the bowl.

When all the numbers have been stuck on, carefully remove the masking tape.

Cut your chosen designs away from the sheet one by one. Remove the protective paper from the back and rub the number onto the bowl with the supplied wooden stick. Now carefully remove the protective top foil layer from the rubbed-on number.
