

A picture with a natural design decorated with Silk Clay

STEP BY STEP 023

Inspiration: 15613

Start by modelling the parts which you think are missing in the decorative picture. We have rolled a thin sausage from Silk Clay for the snail's shell.

Push the parts onto the picture.

Unfold the stand on the back of the frame and secure it in the notch.

A picture with a natural design decorated with Silk Clay

Decorate this pre-printed decorative thick card frame and picture to complete the natural design. Model small Silk Clay figures and details and attach these onto the picture. Silk Clay sticks directly onto the card frame and picture while it is moist. Once the Silk Clay has hardened, then the stand on the back of the frame may be unfolded to stand on its own for decoration.
