## Hand-made Boxes painted with Blackboard Paint and decorated with a Handle on the Lid

These hand-made boxes with lids are each painted with blackboard paint in two colours; white for the box and black for the lid. When dry, a handle is attached onto the lid; a black leather cord with a white-painted wooden bead.

**01**

The box and lid are painted separately with blackboard paint. The lid is painted black, while the box and the wooden bead are painted white. Leave to dry.

### **A TIP!**

Blackboard paint gives a matt finish. It is now possible to write erasable messages with chalk.

**02**

Make a hole in the middle of the lid using an awl or similar. Tie a knot on a doubled-over leather cord. Pull the cord through the box lid from underneath. Thread the wooden bead onto the cord, tie a knot and trim the cord.
