Wooden Christmas Baubles decorated with Craft Paint and Plus Color Markers

These wooden Christmas baubles are decorated with Plus Color craft paint and Plus Color markers. Masking tape and transparent acrylic varnish are used for painting one half of the bauble.

If you want to draw a design directly on the wooden bauble, apply a coat of transparent acrylic varnish to prevent the marker running.

Draw a design with a Plus Color marker directly on the wooden bauble (varnished with acrylic varnish beforehand).

Alternatively paint the bauble with Plus Color craft paint rather than varnishing it.

Draw a design on the bauble with a Plus Color marker after it's been painted with craft paint.

Attach masking tape around the middle of the bauble and paint one half with craft paint. Apply a coat of transparent varnish where the masking tape and wood meet to prevent the paint from seeping underneath the masking tape.
